In areas where multiple broadband providers offer service, this platform composite map stacks coverage display layers in the order presented below.

- Fiber Broadband
- Cable Broadband
- DSL Broadband
- Fixed Wireless Broadband
- Mobile Wireless Broadband*

This map represents areas of broadband service availability determined by ongoing, in-depth technical analysis of provider networks and accommodations for the impact of external factors on service quality. Satellite broadband services may also be available.

*This map is not a guarantee of coverage, contains areas with no service, and generally predicts where outdoor coverage is available. Equipment, topography and environment affect service.
